

**Society for the Advancement of Biology Education Research**  
Reduced-fee membership rules and terms

Because SABER values diversity and promotes inclusion, we offer a **one-year**, reduced-fee membership option of only \$10. This is **only available to individuals with a valid financial need**. This is **not renewable**, and after one year, such memberships will automatically be changed to the full-price faculty/staff/administrator level (activation contingent on payment of fees). *Note: At that time, membership level may be changed to other full-price options if faculty/staff/administrator is not the appropriate level.*

*Terms updated on 9/17/20 and thus applicable to any reduced-fee memberships initiated after that date.*
