

A call to action:

Striving towards inclusion in academic biology

Disability culture in the academy: Stories, lessons research

The purpose of this discussion is to share insights about disability culture, disability identity and high lived academic ableism e experiences and potential solutions related to aspects of physical access, job market, teaching, and conferences pertinent to the academy.

An initiative sponsored by the Society for the Advancement of Biology Education Research (SABER) focused on promoting awareness, understanding and commitment to change academic biology environments to be more inclusive. We are excited that speakers will be compensated for their time and this event is co-sponsored by Arizona State University's HHMI Inclusive Excellence Project, SEISMIC Collaboration, Community College BIO INSITES, and the ASU RISE Center.

Seminar

Date: Thursday, April 1

Time: 9 AM (PT) // 10 AM (MT) // 11 AM (CT) // 12 PM (ET)

Location: Zoom
